

Vowel or Consonant.

Problem Statement

Rohit is learning English alphabets. His teacher asked him to write a program to check whether a given character is a Vowel or a Consonant.

- Vowels are: A, E, I, O, U (both uppercase and lowercase).
- Any other alphabetic character is a Consonant.
- If the input is not an alphabet, print "Invalid Input".

Your task is to help Rohit by writing a program that takes a single character as input and classifies it correctly.

Input Format

- A single character ch.

Output Format

- Print "Vowel" if the character is a vowel.
- Print "Consonant" if the character is a consonant.
- Print "Invalid Input" if the character is not an alphabet.

Sample Input 0

A

Sample Output 0

Vowel
